CIRCULAR SAW BLADES

CATALOGUE 2026

Discover Precision with GFB Circular Saw Blades

Australia's trusted GFB range of premium circular saw blades. Engineered for professional tradespeople and serious DIYers, GFB blades deliver exceptional cut quality, durability, and value. Whether you're framing, finishing, or tackling general woodworking, GFB has the right blade for the job.

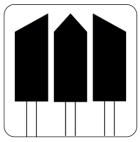

GFB Circular Saw Blades - Built for Performance

GFB blades feature high-grade tungsten carbide tipped teeth that stay sharper longer, resist chipping, and provide clean, accurate cuts across a wide range of materials including hardwood, softwood, plywood, MDF, and more.

With laser-cut bodies for reduced vibration and precise bore & bushing options for a perfect fit on popular saws, GFB blades minimise waste and maximise efficiency on every job.

Product Highlights / Key Benefits

- **Premium Tungsten Carbide Teeth** — Exceptional edge retention and cutting speed
- **Anti-Vibration Design** — Smoother operation and reduced noise
- **Ultra-Thin Kerf Options** — Less material waste and lower power draw
- **Black Teflon Coating** — Demolition range only
- **Reinforced Steel Construction** — Keeps blade true & stable at speeds up to 8,000 RPM (Speedline Range) and 10,000 RPM (Demolition Range)
- **Multiple Tooth Configurations** — From aggressive framing to ultra-fine finish cuts
- **Versatile Sizing** — Common diameters including 165mm, 184mm, 210mm, 235mm, 254mm and 305mm, with popular bore sizes and bushings included where needed
- **Universal Compatability** — Engeineered to fit all major machines on the market - including Makita, Milwalkee, Bosch, Dewalt, Festool and more
